In 1842, the world was introduced to the first-ever pale lager, and beer was forever changed. This light straw to golden-colored earthy sensation soon became the most popular style of beer on the planet. Just as this iconic beer makes great use of flavors, our Pilsner floor plan makes great use of space in this open single-story home. For those that are first-time homebuyers to those with smaller families or those looking to downsize, this might be the perfect time to sip on a refreshing Pilsner.
