Tucked away in the peaceful enclave of Quivira Estates on Albuquerque's Westside, the Victoria floor plan offers a refined balance of thoughtful design, modern comfort, and understated luxury. Located in a quiet, limited-release community with only eight exclusive homesites, this home delivers privacy and serenity without sacrificing convenience—close to major roads, top-rated schools, and scenic walking trails, all surrounded by stunning Sandia Mountain views.

The Victoria features 3 spacious bedrooms and 2.5 bathrooms, with an open-concept layout that's both inviting and functional. The great room is enhanced by elegant boxed ceiling beams, while the kitchen is outfitted with Level 3 quartz countertops, soft-close doors and drawers, and finishes that bring both style and practicality to everyday living.

The owner's suite offers a true retreat with dual walk-in closets, while the secondary bedrooms are connected by a convenient Jack-and-Jill bathroom—ideal for families or hosting guests.

A true standout is the three-car garage configuration, with a separate third bay ideal for storage, a hobby space, or your weekend vehicle. The main two-car bay includes overhead storage and comes pre-wired for an EV charger, blending traditional functionality with forward-thinking features.
