 2,610+ Sq. Ft.

 3 - 4 Bedrooms

 2.5 Bathrooms

 2 Car Garage

Just as Elizabeth Taylor is considered the last classic Hollywood icon, our Taylor ready to be built floor plan was designed in her likeness. Like Elizabeth, this plan is known for its beauty and ability to 'hook' those who see it. This is the expanded version of the always popular 'Diana' floor plan with three spacious bedrooms and a large loft/option for a fourth bedroom.

Base Elevation

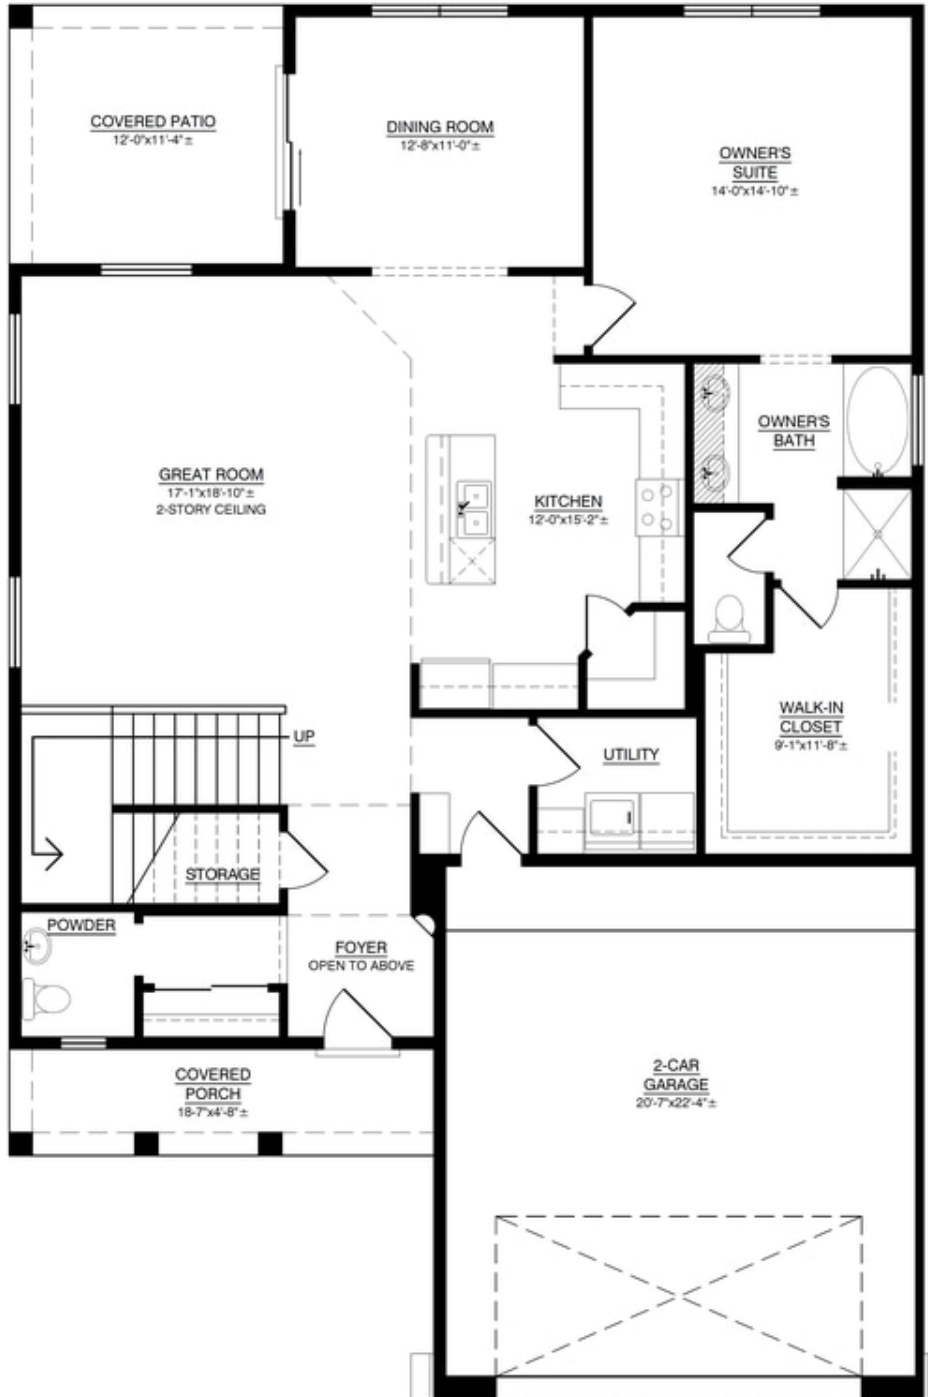

Craftsman Elevation

All square footage is approximate. Renderings are artist's conceptions and may vary slightly from the actual home. Homes may be built in reverse of plans shown, depending on site conditions. Minor architectural changes may be made occasionally at the option of the builder. Please contact your Sales Consultant for details.
