**Plan:** The Selena

**Elevation:** Mission Elevation

 1,730 Sq. Ft.

 3 Bedrooms

 2.0 Bathrooms

Known for mainstreaming Tejano music, Selena Quintanilla was small but powerful, our Selena floor plan portrays her in just that way. The Selena is a ready-to-be-built plan that features a recessed patio, offering the luxury of privacy while you sip coffee in your robe in the morning. This three-bedroom house offers great view potential from the great room, kitchen, and the owner's suite.

All square footage is approximate. Renderings are artist's conceptions and may vary slightly from the actual home. Homes may be built in reverse of plans shown, depending on site conditions. Minor architectural changes may be made occasionally at the option of the builder. Please contact your Sales Consultant for details.
