Just like Harriet Tubman, the icon of American courage and freedom, this home stands out amongst the crowd. The ready to be built Harriett floor plan with it's distinctive elevation features an 'entertainers' kitchen with a bar top between the kitchen and the great room. The owners suite features a spacious walk in closet, and the optional vaulted ceilings in the great room can make it live larger than it is. Discover why this plan was the winner of the 'Buyer's Choice Award' in the Parade of Homes.
